Our school strategies are showing substantial progress toward our targets

After reviewing our *Great Results Guarantee* agreement, it is clear that we have made progress toward our targeted student outcomes. We will continue to focus on maximising the benefits of this funding for our students, and adjust our strategies as needed to ensure every student succeeds.

Strategies implemented include:

- In junior secondary small group classes were created to provide additional targeted support for students
- Reviewed and refined the schools literacy program, increasing instruction time on literacy for year 7 and 8 students
- Continued multilit reading programs for lower level literacy students
- Implemented higher order thinking to develop students in the U2B
- Incorporated pre and post testing to inform class compositions and to provide targeted literacy and numeracy support
- Continued focus on a whole school pedagogical approach to support consistency in program delivery across the school
- Master teacher engaged with a targeted focus on reading improvement and coaching of teachers to support student outcomes
- Regular meetings to review student outcomes and discuss best practice for areas of development in student learning
