

Dear Parent/Caregiver,

Beginning in 2021 Keebra Park SHS has transitioned to an exciting new Learning Management Program called 'Daymap'. Daymap is available to staff, students and parents/caregivers via both an app (Android & Apple) and web browser (<https://keebra.eq.daymap.net/>).

What does Daymap do?

Daymap is one-stop-shop for students and their parents/care-givers which will provide them access to important student information such as:

- *Student attendance details*
- *Student timetable & class details*
- *Student classwork details such as learning goals & lesson resources*
- *Student Assessment calendar and due dates*
- *Representative sports calendar including try-out information and applications*

In addition to this, students and parents/caregivers will be able to view important messages and communications from the school, and will be able to contact the school and your child's teachers in app on your phone or via the web browser portal.

What do you need to do?

Nothing! Daymap access is already set-up for you as long as your contact details are current. You must have an email address recorded with the school, otherwise you will not be able to access Daymap. Your username will be the email you have provided the school.

If you need to update your email or add one, please contact info@keebraparkshs.eq.edu.au

You will receive an email asking you to reset your password for your Daymap account. We will also be in touch with further instructions and with some handy guides on the features of Daymap.

If your student has a device (preferably a laptop) we would love for them to start bringing this to school every day from 2021 so that they may utilise it and access Daymap during the school day.
